

NIBAN[®]

Controls slugs & snails.

Labels are printed in black & white to be discrete in the field.

Niban offers pest management professionals a perimeter bait that stands alone and practically eradicates call backs. Its active ingredient is a 5% boric acid. Each granule carries patented insect food attractants and food grade oils to give the bait not only excellent insect attraction and efficacy, but also long-term protection against moisture and spoilage.

Niban is made with a patented formulation that features additional attractants as well as a broader granular range to appeal to slugs and snails. It also delivers significantly greater performance against slug and snails than iron phosphate.

Niban contains attractants and a granular range that appeal specifically to slugs and snails as well as many other listed pests.

- Listed pests include multiple species of ants, cockroaches and crickets as well as silverfish, earwigs, slugs and snails.
- Labeled for use on all structures, golf courses, playing fields, parks, green houses, interiorscapes and meat and poultry plants.
- Weatherized: Won't degrade in heat or sunlight and lasts through 4" of rain without molding.
- Proven superior attractants with a broad spectrum kill.
- Kills the whole ant colony.
- Good for indoor and outdoor treatment.
- Has virtually no odor. Can be used indoors in sensitive areas.
- Non-staining formulation can be used on wood decks and concrete walkways.
- Mega-mix of attractants to increase uptake by pests year-round.
- Provides excellent perimeter treatments.
- Delivers significantly greater performance against slugs & snails than iron phosphate.
- Metaldehyde-free, borate-based and formulated with a concern for the environment.
