To treat up to 3 drains or sinks, dissolve one 2-oz. packet in one gallon of water. Shake well to mix. Pour into drain(s) or sink(s) using 1/3 gallon to one gallon of mixed solution per drain or sink. Continue monthly or quarterly applications to keep drain(s) flowing. May also be used in garbage disposals. If necessary, application can be repeated once per week for 4 weeks during a time when drain(s) are least active.
