

# NIBAN<sup>®</sup>

## CONTROLS SNAILS & SLUGS

Niban offers pest management professionals a perimeter bait that stands alone and practically eradicates callbacks. Its active ingredient is a 5% boric acid. Each granule carries patented insect food attractants and food grade oils to give the bait not only excellent insect attraction and efficacy, but also long-term protection against moisture and spoilage.

Niban is made with a patented formulation that features additional attractants as well as a broader granular range to appeal to slugs and snails. It also delivers significantly greater performance against slugs and snails than iron phosphate and is metaldehyde-free.
