

# MAGNETIC

## ROACH BAIT™

**Magnetic Roach Bait™ (MRB)** is a borate-based paste for residential, commercial, and industrial accounts. Made with food-grade ingredients and a highly palatable bait matrix, MRB attracts roaches even in resource competitive environments. Plus, because of the borates, you don't need to worry about pesticide resistance. Available in jars and syringes, you have the flexibility you need to get control of an infestation no matter the job. Give roaches a taste they can't resist with MRB.

### MRB Features:

- **Multiple Pack Sizes:** Available in 19 oz jar (case of 12); 4-pack box (5 boxes per case); and 10-pack box (5 boxes per case)
- **Powered by Borates:** 33.3% boric acid active ingredient for effective primary and secondary kill
- **Beats Pesticide Resistance:** No known insect population has ever developed a resistance to borates
- **Combats Bait Aversion:** Formulated with food-grade ingredients for highly attractive bait matrix
- **Application Flexibility:** Syringes pair perfectly with Blue Bait Gun\* for precision placements while jar allows for broader applications

\*Blue Bait Gun sold separately. MRB syringe packs come with plungers.
